SDK name and version(s)

Associated specification or test case error reports

Please provide a reference for any error reports that are connected to this waiver.

For each test: description of fail

Please explain exactly what happens when each test fails, or details of why the test cannot be executed.

For each test: justification of waiver

Please provide a justification for why the device should pass.

If possible, please provide a description of an alternative test which demonstrates that the product is compliant with the specification and evidence that the product passes the alternative test.
